Financial Operations Officer

**Delegation of Authority—Organizational Approval of Capital Program Management System (CPMS)**

The campus Capital Program Management System (CPMS) is designed to meet evolving campus business system requirements in support of capital planning, design, construction, and maintenance. It uses various roles to facilitate the capital review approval process. Organizational approvers provide final approval and prioritization for CPMS service requests. The Associate Vice Chancellor serves as the organizational approver for the Business and Administrative Services organization.

With this letter I re-delegate to the Financial Operations Officer the aforementioned authority in the absence of the Associate Vice Chancellor. In such circumstances, the Financial Operations Officer will advise the Associate Vice Chancellor, via email, of the action being taken.

This authority is effective immediately and may not be further re-delegated. It is being issued to enhance operational efficiencies.

Ron Coley  
Vice Chancellor, Business and Administrative Services

Cc: UCR Delegation of Authority Coordinator  
Office of the Vice Chancellor of Business and Administrative Services  
Accounting Office
