Delegation of Authority--Bonding Requirements for Construction Contracts

At the meeting on October 21, 1977, The Regents approved a revised policy on bonding requirements for construction contracts, as follows:

That the President be authorized to set requirements for bid bonds or other forms of bid security, performance bonds, and payment bonds for construction contracts, unless such requirements would be inconsistent with the requirements of a funding agency for a funded project or with mandatory requirements established by state law.

Effective February 1, 1989, within your areas of responsibility, you are authorized to execute construction contracts valued at less than $25,000 without requiring bid bonds or other forms of bid security, performance bonds, or payment bonds, and to execute contracts valued between $25,000 and $50,000 with payment bond security alone. Exercise of this authority shall be subject to the language of The Regents' action noted above, to regulations and reporting requirements in the Facilities Manual, and to other requirements which may be established by the Office of the President.

Any redelegation of this authority shall be in writing, with copies to the Senior Vice President--Administration, the Director--Coordination & Review, the General Counsel of The Regents, and the Secretary of The Regents.

This delegation supersedes the July 1, 1985, delegation (DA 0871) to Chancellors, the Director of Lawrence Berkeley Laboratory, the Director of Lawrence Livermore National Laboratory, the Vice President--Agriculture and Natural Resources, and the Vice President--Budget and University Relations on the same subject.
